Body specification

Oyster white (CGCC colour steel plate) JPMA No. H27-85B correspondent (Japan Paint Manufacturers 2015 H-edition)

Sheet line up

Magic optron Prevent attractive to flying insects 80.7% Insect-proof effective $\star \star \star \star \star$ Visibility **** Flameproof certified : F-27303

Varieties of sheet colour available

Aluminium

※ Aluminium frame only

Electrification-proof nonflammable sheet Noncombustible flameproof certified

UV protection $\star \star \star \star \star$

(Anodizing)

Except RF50

Antistatic

%except
RF50/RF30W/R40W

M8 Drill bol

Stainless

Rat-protection bottom sheet blended

oof certified:F-2504

v develop from the voice of omer such as food factory biting the sheet and enter

(SUS304 Hairline)

* Only frame for RF50 Model

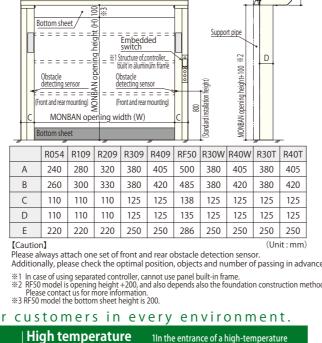

%Flame proof product number "N-0793" *SS clear, Opacity blue, orange, silver may not be produced. Depends on door size. Please ask for more information show order specification

*Magic Optron is a joint development products of Ikari Co.,Ltd and Taisei fine chemical Co.,Ltd

Option equipment can be chosen according to the application and size

Please specify the option equipment which suit to your usage of the sheetshutter when order.

Fitting simply figure *Figure of R054

*1.Please install at place that the product will not directly to the rain and water. *2.Please refrain from using at place such as coastal areas, various types of metal powder, chemicals for use in corrosive atmosphere or places of environmental conditions such as condensation and freezing and poisonous gas. *3.The production of the body (W / H) will be 100mm unit. *4.Please contact us for size out of standard production range. Please note that It may not be able to manufacture. *5.Appearance and specification of product may be change for improvement the quality without prior notice. *6.Please use read the instruction manual correctly and carefully for using.

The contents of this catalog is issued on August 2016 currently.

Incredible effects to the quality and air-conditioning.

Dust proof, Insect proof

Wind proof, cold proof

Hi speed opening and closing

Hi grade air tight

resisterat

Maximum width

Shorten the opening time, improves working efficiency, and contribute to energy saving and quality surplus by the change of indoor environment due to the outside air, insects and dust.

25 napros

1010 PH 2

Install large opening width

happygatemonban Product introduction video

Patent pending

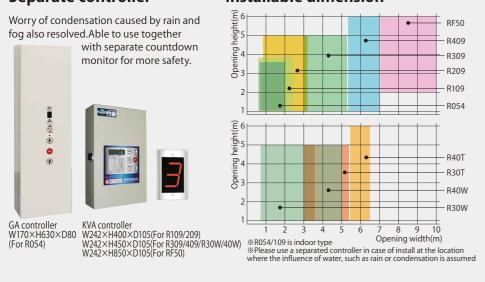

Separate controller

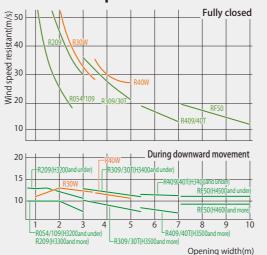

Worry of condensation caused by rain and fog also resolved. Able to use together with separate countdown monitor for more safety.

Installable dimension

Wind resistant performance

Structure of pipe-type model with strong wind and pressure resistant is suitable for insect proof, dust proof, wind proof and cold proof. Pipe-type with high grade airtight and high speed up fit to all small to large opening size

Pipe type with wind and air pressure strong resistant Wind pressure resistant specification product

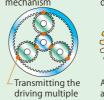

Tightly sealed to prevent a gap that can be from the bulge of the sheet by the wind and pressure difference. High grade airtight structure in the top frame and side frame.

New engine model **Opening high speed 2.0m/s**

High-speed opening and closing 2.0m / sec by the new engine. Shorten the opening time at the entrance and contributing to improve working environment enhances the air conditioning effectiveness, insect proof and dustproof effect.

meshing

High effectiveness of insectproof and dustproof

Further improved air-tightness in combination with an air tight seal. Possible to prevent the fully *our product attach airtight seal; shown by numerically closed of insects and dust intrusion, and achieve a higher quality control and clean working environment

*circulating air at 10Pa using JISS fore testing inside co. *Wind pressure performance can be different depending on the size
